

Kosterlitzky Hastening to Strengthen Forces On Nearby Border Against Rebels--Marauding Bands Raid Ranches Near Naco--Ninth U. S. Cavalry Activities are Due to Gananea Plan

MURDER ENDS THEIR QUARREL

J. J. Morrison, Formerly Prominent in Politics, Victim of Chas. Zieger, Business Man

IS CONGRESS TRAGEDY

PRESCOTT, Feb. 6.—Telephone advice tonight from Congress Junction brought the startling information that Edward Zieger had been shot and killed by J. J. Morrison at the Octave mining camp at about 8:00 o'clock.

No details of the tragedy were given, but it is the supposition that the two men quarreled over mining property, in which they were interested, both being favorably known as operators in that field for many years.

The weapon used by Morrison was a pump gun and the entire charge or shot lodged in the abdomen of Zieger, death resulting about an hour afterward.

At the time of the homicide Morrison was watchman of the Octave property while Zieger had arrived from the Junction to inspect the work going on at the Peterson group which he is developing under a lease and bond. The affair has created very much discussion in this city, both men being prominently known throughout the county and in that section particularly, where both are interested in various properties, but not associated however.

Zieger conducted a general merchandise, hotel, livery stable and other lines of business, and was well rated in business circles, being a brother of Charles Zieger, the wealthy resident of El Paso, Texas.

Morrison was conspicuous as a democratic politician until a few years ago. He was elected to the legislature, but recently has been identified with many mine undertakings as a principal in the Congress country.

ANOTHER SCOOP FOR ROYAL THEATRE

Another picture that will prove of great interest to the public in general has been secured for the Royal theatre and will be shown for two days commencing with today's matinee.

The title of this picture is "Glimpses of Balkan War Territory" and shows in detail the territory now in the throes of the greatest war of recent years.

In this offering we are shown the defense of the Dardanelles and scenes on the Bosphorus as well as interesting views of Constantinople from along the water front.

Then we are taken on a trip through Bosnia, a picturesque little Province acquired by Austria about two years ago.

The photography is good and the picture gives a fair idea of the inhabitants. The other pictures on today's bill are the cream of the licensed productions and well worth

Renewed Operations of Rebels from Rendezvous in Ajos Strengthens Recent Reports.

MUCH ALARM IS MADE BY RAIDS

U. S. Captain Sievert Notes Presence of Rebels Near Naco, Unmolested by the Federals.

DOUGLAS, Ariz., Feb. 6.—Arrangements are being made by the Ninth cavalry to greatly strengthen the border patrol between Douglas and Naco. This is the result of well founded reports that renewed activities by the rebels in the Cananea country is imminent. It is reported that a scheme is on foot by the rebel leaders in northern Sonora to make that point the headquarters in an attempt to force intervention by the United States.

The Santa Rosa and Curry ranches thirty miles south of Douglas in Sonora were raided yesterday and all horses, provisions, guns and ammunition are being taken. The leader of the raiders is Jose Rodriguez, who was recently released at Phoenix after a trial on the charge of violating the neutrality laws.

Col. Emilio Kosterlitzky is due to arrive at Agua Prieta tomorrow with a force of marines to strengthen the garrison on the frontier against the campaign threatened by the rebels.

According to Captain H. A. Sievert, commanding the troops at Naco, a band of rebels are stationed somewhere in the vicinity of Naco and have been robbing ranches. There are seventeen in the band, all fully armed. Captain Sievert says that he saw several of them on the Mexican side near Naco, and although the federals have soldiers stationed there, the looters were unmolested.

One of the biggest hauls the looters have made was at the Santa Rosa ranch, about 8 miles south of Naco. Manuel Elias, the owner, says there were about 15 men under the leadership of Teodoro Rodriguez. Everything that could be taken away, mules, food supplies, blankets, and ammunition was carried off, hardly any being left behind.

It is believed that the band is part of a large company who have a stronghold in the Ajo mountains. Several shots were heard from that

Woman's Beauty is Based on Health

To Have Health, Bowel Movement is Absolutely Necessary--How Best to Obtain it

If woman's beauty depended upon cosmetics every woman would be a picture of loveliness. But beauty lies deeper than that. It lies in health. In the majority of cases the basis of health, and the cause of sickness, can be traced to the action of the bowels. The headaches, the lassitude, the sallow skin and the lusterless eyes are usually due to constipation. So many things that women do habitually conduce to this trouble. They do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough. But whatever the particular cause may be it is important that the condition should be corrected.

An ideal remedy for women, and one especially suited to their delicate requirements, is Dr. Caldwell's Syrup Pepsin, which thousands of women endorse highly. Mrs. Jennie Snedeker, 1041 West Monroe St., Chicago, testifies that she is "rejoiced of grave stomach and bowel troubles by using Syrup Pepsin and without the aid of a doctor or any other medicine." All the family can use Syrup Pepsin, for thousands of mothers give it to babies and children. It is also admirably suited to the requirements of elderly people. In fact to all who by reason of age or infirmity cannot stand harsh salts, cathartics, pills or purgatives. These are always

providing penalties for violation of the provision of this bill. The proposed law is a big step in advance of any reformatory law now on the law books of the state, but it evidently does not go as far as is desired by the residents of Graham county who have petitioned the legislature to enact a law similar to the present law of the state of Kansas. That law makes it an offense for a minor to be in possession of narcotics in any form, as well as makes it an offense to sell or distribute the same.

The proposed law of Senator Hughes reads as follows: Sec. 1. No person shall furnish cigarettes or cigarette paper or tobacco in any form, by sale, gift, acting as agent, directly or indirectly, or otherwise, to any minor under the age of eighteen years, and any person so offending may be tried before a police magistrate or official having criminal jurisdiction in any city, borough, town, township, village, or other municipality where such offense was committed and on conviction thereof shall be punished by a fine not exceeding ten dollars (\$10.00) for the first offense and not exceeding twenty-five dollars (\$25.00) for each succeeding offense.

Sec. 2. All acts and parts of acts inconsistent herewith are hereby repealed.

avoided for at best their effect is only for that day, while a genuine remedy like Syrup Pepsin acts mildly but permanently.

It can be conveniently obtained at any drug store at fifty cents or one dollar a bottle. Results are always guaranteed or money will be refunded. You will find it gentle in action, pleasant in taste, and free from griping, and its tonic properties have a distinct value to women. It is the most widely used laxative-remedy in America today and thousands of families are now never without it. If no member of your family has ever used Syrup Pepsin, and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

child under the age of fourteen years shall be employed in any salaried occupation at any time during the hours in which the public schools of the district, in which the child resides, are in session. This provision has again been called to the attention of the attorney general by the house of representatives and further advice from him requested.

The Pioneer Home Trouble.

It now seems likely that as a result of the quarrel between the inmates and superintendents of the Pioneer Home that a legislative investigation will be conducted. Already Governor Hunt has requested the board of control to make an investigation, while no information to such effect can be secured at the governor's office, it seems probable a change in superintendents of the institution will be necessary. Already a bill has been introduced in the senate providing that the superintendent of the home need not himself be eligible to admission to the home, as is the present law, a step many interested in the home consider to be in the right direction, for the reason that a younger superintendent than a pioneer is desired.

Provides Charity Representative Irvine of Maricopa county is the author of a bill which was today introduced in the house providing for the partial support of dependent and neglected children.

The plan of the Maricopa county lawmaker is to have the county and the state divide the burden of caring for such minors, and his bill provides for a maximum payment of \$12.00 a month where there is one child in a family and maximum of \$6.00 a month for any other children in the same family.

The operation of the law is left very largely in the hands of the probation officers and juvenile court of the state, who are required to investigate conditions surrounding the children. The bill also provides for the appointment of probation officer where none now exist.

Missouri adopted a bill similar in purport which they called the Mother's Pension law and a bill along the same line was adopted in Colorado and there called the Mother's Compensation act. California, it is said, has just recently adopted such a law and Representative Irvine has drawn on all of these states for ideas which he has embodied in the proposed Arizona Statute.

The Hon. Billy Graham of Cochise county seems determined to develop the water resources of the Sulphur Springs valley. At the two previous sessions of the legislature, Mr. Graham had bills appropriating money for the sinking of wells for the development of an Arizona water supply. They failed of passage, but the author of the bill is persistent and now has a new bill in the house concerning the subject and appropriating a sum of money for the building of the wells.
